

2011-2012

Dear Parents,

Seven years ago, Most Holy Trinity School began using a web-based grading program. This is a secure site and no one can see your child's grades except you and the staff. We are pleased that we will be using TeacherEase again this year. This program enables us to improve student performance by maintaining communication with you, the parents. This program allows parents to login and view student assignments, scores, missing assignments, etc. It will also allow teachers to email parents when we have notable events in the class, communicate positive comments to you concerning your child's work, notify you when there are problems, and opens communication between you and the teachers.

If you participated in the program last year then you are ready for this year. You do not need to do anything except logon. If you have not participated or had trouble obtaining your child's grades last year, please call the office for help. In order for you to participate we must have an accurate email address (that includes case sensitive letters). You should receive an e-mail message with a logon/password shortly after we obtain your email address.

If you have any questions or comments about this program, please feel free to contact me.

Sincerely,

Anne Hufnagel
