

Did you know?

There are 10 billion new gift cards placed in circulation every year, with the potential to add 75-100 million pounds of PVC material to the waste stream. So what is a consumer to do with all of those spent gift cards???

Many of our gift cards, including Exxon, are reloaded. Please visit www.shopwithscrip.com for more details. To register an account, please use our school code: **73F4AA69227**.

Spent gift cards can also be recycled. Simply mail plastic cards to:

Earthworks c/o Halprin Ind.

25840 Miles Rd.

Bedford, OH 44146

Please send only plastic cards (no rubber bands, paper clips, or paper).
